(HTML,CSS,JS,JAVA)  
  
PluteCoder Tech  
(JAVA & API)

## PROJECTS

### MedScan

2023 - Present

App to store patient data and make easy sharing by QR  
Work: Front End Developer

I collaborate closely with design teams to develop prototypes and interactive app experiences inorder to tell the story of the products and services .

### Student Zone

2022

Website made for student information and entertainment  
Work: Developer

I developed a website by using simple html,css,js . I was responsible for all website design, making API call i.e. backend using js .

### Ideas In Mind

- 1)**Bus Demand App**:- App which will take user info where they want to go and can make request to arrange bus.
- 2)**Agri App**:- To solve problem of Indian farmer of low price I want to develop a app which will take market info of demand, current product availability and what farmers are planting now.
- 3)**Portfolio**:- To showcase my skills using my own learning's in creative way.
